FAA REPAIR STATION N2RR559Y – A SUBSIDIARY OF LINDEN STREET CAPITAL CORPORATION

Date: January 2018

Re: Response to Supplier/ Vendor Quality Evaluation/Survey

Dear Customer,

At FFC Services we have consolidated a package for our Aircraft Maintenance Repair Station. This package includes a copy of the following:

- ✓ Completed Audit Checklist
- ✓ FAA Repair Station Air Agency Certification
- ✓ ISO 9001 Certification
- ✓ Drug and Alcohol Certification
- ✓ Capability List
- ✓ Operations Specifications

If you have any questions, please do not hesitate to contact me.

Best Regards,

Dale Rosson
Quality Manager

Fed Ex, American Airlines, U S Airways

A	GENERAL	Yes	No	N/A	Comments
1	Does the provider hold an FAA Air Agency or Transport Canada AMO Certificate?	x			14 CFR Part 145 Air Agency Certificate
	a) Certificate # N2RR559Y	x			
	b) Operation Specifications attached	x			
2	Does the Provider only perform work for which it is authorized on it's Op Spec?	x			
3	Are the person(s) directly in charge of maintenance authorized on it's Op Spec?	x			
	a) Certificates to include company employees and subcontract personnel?	x			No subcontracting allowed per RSM, ref.
4	Does the repair station observe duty time limitations?	x			FFCS utilizes a fatigue management program with customer approval required.

B	QUALITY ASSURANCE	Yes	No	N/A	Comments
1	Is there an established Quality Control Program?	x			FFCS is 14 CFR Part 145 and AS9110 Certified.
2	Does the provider have an up to date QC manual that covers the FAR manual requirements?	x			
	a) Does it detail duties, responsibilities and reporting	x			
	b) Is the manual current and available to employees in acceptable formats: i.e. paper, CD Rom, intra net?	x			FFCS uses a dedicated intranet web site as it's regulatory library for the field.
3	Does the provider have an internal audit and surveillance function?	x			
	a) Do you have an established schedule?	x			FFCS has a monthly schedule of internal audits that cover Part 145 and ISO Standards
	b) Is there an established procedure to provide corrective actions for discrepancies?	x			
	c) Is there evidence appropriate corrective actions have been applied when necessary?	x			
4	Do you maintain a file of audit findings and corrective actions for 3 years?	x			
5	Does the provider have an established procedure to ensure segregation of military and commercial parts/ components?		x		FFCS does not purchase or house any aircraft components or articles.
6	Does your company maintain an approved vendors list?	x			
	a) Do Receiving Inspection and Purchasing Department receive copies of the approved vendor's list?	x			
7	Does the provider have a procedure for reporting defects or nonairworthy conditions to the FAA concerning significant findings within 96 hours of the discovery?	Nicola Dykes			

C	INSPECTION	Yes	No	N/A	Comments
1	Does the provider use appropriately licensed/authorized maintenance personnel to sign the maintenance releases, airworthiness releases, inspections, etc. Such personnel shall have met the applicable authority requirements?	x			
2	Does the provider ensure a proper separation of maintained and inspection responsibilities if they perform required inspections?	x			
3	Does the provider maintain an up to date roster of persons authorized to conduct required inspections and any restrictions imposed?	x			
4	Does the provider maintain a roster that identifies all personnel authorized for return to service?	x			
5	Does the roster maintain a roster identifying all supervisory and inspection personnel?	x			
6	If stamps are used, is there an acceptable system for the control of stamps for authorized personnel?			x	No stamps used
7	Does the provider have an acceptable receiving inspection program?	x			
	a) Does the provider have an acceptable procedure to identify customer parts?	x			
	b) Does the provider inspect and maintain traceability certification on all parts and raw materials?	x			
	c) Are incoming shipments checked to the requirements of the Repair or Purchase order?	x			
	d) Are inspected items properly segregated from material awaiting inspection?	x			

D	TECHNICAL DATA	Yes	No	N/A	Comments
1	Is a specific individual by title responsible for the Technical Publications Program?			x	FFCS maintains no technical documentation. All approved data provided by the customer on a job by job basis.
2	Does the Technical Publications department maintain a record of all manual revisions?			x	See above.
3	Does the provider have the required technical data and or publications and the specification to perform the repair/overhaul OEM specifications?			x	See above.
4	Are there established approved procedures controlling revisions in manuals deviating from OEM specifications?			x	See above.
5	Are components overhaul manuals properly identified and available to all maintenance /QA personnel?			x	See above.
6	Is there a system to control working copies of manuals to ensure they are revised with the master?			x	See above.
7	Is technical data stored in a manner that will protect it from dirt and damage?			x	See above.

E	CALIBRATED TOOLS	Yes	No	N/A	Comments
1	Does the provider have a calibrated tool program?	x			
2	Is a specific individual by title responsible for the Calibrated Tooling Program?	x			
3	Are all tools that require calibration on the Calibrated Tool List?	x			
4	Are all tools calibrated to NIST standards?	x			
5	Is there a system to identify each tool in the program, it's calibration frequency and it's calibration due date?	x			
6	Does the provider have a procedure for controlling and/ or preventing out-of-service and due-for-calibration tools and equipment from being used?	x			
7	Does the provider have a procedure to control the calibration of employee owned tools and gauges?	x			
8	Did a sample check of tooling indicate that the tooling is within calibration?	x			
9	Are the tools in serviceable condition, clean, and properly stored?	x			
10	In a sample comparison of the tools to the master tool list, did the due dates, P/N, etc. match?	x			
11	Do the records:	x			
	a) Show the date calibrated?	x			
	b) Identify vendor that performed calibration?	x			
	c) Show calibration due date and frequency?	x			
	d) Details of adjustments and repairs?	x			
	e) Show P/N and S/N of the standard used?	x			

F	MATERIALS/ PARTS/ SUPPLIES	Yes	No	N/A	Comments
1	Is access to stock room and material storage areas controlled to prevent unauthorized stocking or removal?			x	All parts supplied by the customer. Procedures in place for consumables.
2	Does provider have a quarantine area for rejected parts awaiting disposition?			x	No parts acquired or held by FFCS.
3	Does your company have a documented procedure to assure that scrapped parts are either returned to the customer or mutilated beyond repair?	x			
4	Do you maintain a record of all life limited parts that are scrapped for two years?			x	No parts acquired or held by FFCS.
5	Does the record include that part number and serial number of the part and the date scrapped?			x	No parts acquired or held by FFCS.
6	Do the parts in bins, plastic bags, etc., match the part numbers on the containers?			x	No parts acquired or held by FFCS.
7	Does the provider handle any ESD parts?			x	No parts acquired or held by FFCS.
8	Are sensitive parts and equipment (O-rings, oxygen parts, ESD devices, etc.) properly packaged, identified and stored to prevent damage, contamination, electrostatic discharge and/or loss?			x	No parts acquired or held by FFCS.

9	Are controls adequate to properly segregate customer furnished material to assure its use in the intended end items?			x	No parts acquired or held by FFCS.
10	Are flammable, toxic or volatile materials properly identified and stored?			x	No parts acquired or held by FFCS.
11	If your company deals in non-aircraft parts, materials and/or maintenance activities, are they adequately segregated from the aircraft function?			x	No parts acquired or held by FFCS.
12	Are high pressure bottles correctly labeled and properly stored and secured?			x	No high pressure bottles owned or maintained by FFCS.
13	Does the Repair Station provide material/parts certifications with every shipment?			x	No parts acquired or held by FFCS.

G	SHELF LIFE PROGRAM	Yes	No	N/A	Comments
1	Does the provider have a documented shelf life program?	x			Program in place, but rarely used for minor amounts of sealant.
2	Does the program assign program responsibility to a specific person?	x			See above.
3	Does the program list parts and materials that have shelf life limits?	x			See above.
4	Does each shelf life item have the shelf life expiration limit displayed and is the item properly identified?	x			See above.
5	Is there an adequate system to assure that no item will be issued or used past its expiration date?	x			See above.
6	Were items sampled for shelf life within limits?	x			See above.

H	TRAINING	Yes	No	N/A	Comments
1	Does the provider have a documented training program?	x			
2	Does the provider have sufficient training facilities/space and instructors, either employed or contracted?	x			
3	Does it include all mechanics, inspectors and technical supervisors?	x			
4	Does the training program employ a scheduling method that assures all required initial training is accomplished and recurrent training is accomplished on time?	x			
5	Are accurate files kept that contain all training certifications, OJT records and copies of certificates?	x			
6	Are special authorizations such as inspection and airworthiness releases identified and documented?	x			
7	Are training records for mechanics, inspectors and supervisors retained for two years after the person leaves the company?	x			
8	Does the Training Program include training in the knowledge and skills related to human performance?	x			
9	Does the Training Program assure maintenance personnel with technical responsibilities have the requisite knowledge of regulations, standards and procedures?	x			

10	Does the Training Program include a training and qualification program for auditors used in the QA Program?	x			
-----------	---	---	--	--	--

I	FACILITIES	Yes	No	N/A	Comments
1	Does the facility meet all of the requirements for housing facilities and capabilities for work to be performed?			x	All work performed by FFCS is off-site at customer locations.
2	Overall, are the work areas, shops, hangar and offices clean and orderly?			x	
3	Does your company provide adequate security for customer parts in its possession?			x	
4	Is the security system reviewed periodically by management or an outside vendor?			x	
5	Are components returned in an appropriate shipping container or as specified by the customer?			x	
6	Are "No Smoking" areas clearly identified and is the provider in compliance with its State laws regarding authorized locations?			x	
7	Are there sufficient fire extinguishers, inspected annually by the Fire Marshall or supplier and are monthly checks completed by provider management?			x	
8	Are fire stations identified and can one be found easily from any work location?			x	
9	Are fire lanes, doors, alarms, blankets, hoses, axes and extinguishers clear of obstructions?			x	
10	Are safety guards in place on power equipment and is there evidence of periodic cleaning and inspections of the equipment operations?			x	
11	Does the provider maintain shop personnel safety records?			x	
12	Are parts and materials properly identified and stored to prevent accidental falls, slips and trips?			x	
13	Are oil and all liquid 55 gal drums kept in a containment area after opening to prevent spills into the sewer/waste water system?			x	
14	Are oil and other liquid 55 gal drums (non-plastic) properly grounded to prevent the possibility of sparks?			x	
15	Are spill kits or equivalent available for use?			x	
16	Are there sufficient eye wash stations which are clearly 1/ marked, clean and inspected routinely?			x	
17	Do stands & ladders have the maximum weight placards or markings and the last inspection dates in a conspicuous II' location?			x	
18	Are electrical boxes clearly identified and free from obstruction to access the doors?			x	
19	Are oxygen and other high pressure bottles properly identified & stored, secured with chains or equivalent?			x	
20	Are first aid kits & blankets clearly identified and free from			x	

J	STORAGE	Yes	No	N/A	Comments
1	Does the provide have a facility of adequate size to house all necessary tooling, equipment, materials and parts?			x	FFCS does not store parts.
2	Does storage adequately protect parts, materials and customer's units from damage, theft and contamination?			x	
3	Is the environment appropriate to protect workers so the quality of the workmanship is not impaired?			x	
4	Do the facilities storage areas have adequate lighting?			x	
5	5 Is the storage separate from shop and work areas?			x	
6	Do shipping and receiving areas have adequate space, lighting, shelving, security and fire protection?			x	
	a) Is there space to safely store suitable shipping containers and protect them from damage?			x

4010 Pilot Drive, Suite 103
Memphis, TN 38118

Dear Ms. Hogenbirk:

We have processed your program registration renewal and a copy is enclosed. Your Registration number, **CONN671B**, has not changed.

Your program registration includes the following certificated repair stations or locations:

Name	Certificate #	Location
FFC Services Inc.	N2RR559Y	Memphis, TN
Floats & Fuel Cells	TH4R544M	Memphis, TN

To complete your registration process, please contact your FAA Principal Maintenance Inspector and request that an "A2" and your registration number are added to Table 1 of the drug and alcohol paragraph (A449) in each repair station's Operations Specifications.

Please note that your registration will **expire on February 5, 2019** and we request that you submit a Renewed Registration prior to the date.

If you have any questions, please contact our office at (202) 267-8442 or drugabatement@faa.gov.

Sincerely,

Tainisha Esco

1.0 General Information

Purpose:

This Capability List identifies each article that is acceptable to the FAA for the performance of maintenance, preventative maintenance or alterations. Maintenance performed on the below listed aircraft or systems will be performed consistent with applicable Federal Aviation Regulations, the Repair Station Manual/ Quality Control Manual of FFCS and other FAA Approved Data.

Procedures:

Revisions to the Capability List will be performed consistent with the RSQM for an "accepted" manual by the local FAA FSDO. Before additions are made to this list, the Quality Manager will ensure this repair station has adequate housing, facilities, equipment, material, technical data, processes and trained personnel in place to perform the work on the article as required by 14 CFR Part 145.

Maintenance performed by FFC Services, Inc., consists of:

Maintenance, inspection, repair and or overhaul of aircraft integral fuel systems; removal, replacement, reinstallation and calibration of associated fuel system components, sheet metal repairs limited to adjacent wing and fuselage areas incidental to integral fuel tank repair in accordance with air carrier manuals, current manufacturers data and or other data approved by the administrator.

** "Data" and additional Tech Data may include:*

- *AMM (Aircraft Maintenance Manual)*
- *SRM (Structural Repair Manual)*
- *IPC (Illustrated Parts Catalog)*
- *EO's (Engineering Orders)*
- *EA's (Engineering Authorizations)*
- *GMM (Air Carrier General Maintenance Manual)*
- *GPM (General Procedures Manual)*
- *ESO's (Engineering Service Orders)*

A001 . Issuance and Applicability

HQ Control: 02/11/2016

HQ Revision: 05e

a. These operations specifications are issued to FFC SERVICES, INC, a Repair Station located in the United States, pursuant to 14 CFR Part 145, § 145.53. The repair station certificate holder shall conduct operations in accordance with 14 CFR Part 145 and these operations specifications.

The certificate holder's address:

Fixed Location:
4010 Pilot Drive
Suite 103
Memphis, Tennessee 38118

b. The holder of these operations specifications is the holder of certificate number N2RR559Y and shall hereafter be referred to as the "certificate holder".

c. These operations specifications are issued as part of this repair station certificate and are in effect as of the date approval is effective. This certificate and these operations specifications shall remain in effect until the certificate for a repair station that is located in the United States is surrendered, suspended, or revoked.

d. U.S./EU Aviation Safety Agreement Repair Station/Maintenance Organization Approvals not authorized.

e. The certificate holder is authorized to use only the business name which appears on the certificate to conduct the operations described in subparagraph a.

Delegated authorities: None

1. Issued by the Federal Aviation Administration.
2. These Operations Specifications are approved by direction of the Administrator.

Digitally signed by Shawn R Phelps, Principal Avionics Inspector (CE21)
[1] EFFECTIVE DATE: 3/7/2017, [2] AMENDMENT #: 16
DATE: 2017.03.07 14:32:42 -06:00

3. I hereby accept and receive the Operations Specifications in this paragraph.

Digitally signed by Dale R Rosson, Manager-Quality
DATE: 2017.03.07 14:11:17 -06:00

A002 . Definitions and Abbreviations

HQ Control: 02/11/2016

HQ Revision: 05c

Unless otherwise defined in these operations specifications, all words, phrases, definitions, and abbreviations have identical meanings to those used in 14 CFR and 49 U.S.C., as cited in Public Law 103-272, as amended. Additionally, the definitions listed below are applicable to operations conducted in accordance with these operations specifications.

BASA	The Bilateral Aviation Safety Agreement (BASA) is an executive agreement concluded between the United States and a foreign country for the purpose of promoting aviation safety; also known as an Agreement for the Promotion of Aviation Safety.
Certificate Holder	In these operations specifications, the term "certificate holder" means the holder of the repair station certificate described in these operations specifications in Part A paragraph A001 and any of its officers, employees, or agents used in the conduct of operations under this certificate.
CFR	Code of Federal Regulations
Class rating	As used with respect to the certification, ratings, privileges, and limitation of aircraft within a category having similar operating characteristics.
EASA	European Aviation Safety Agency
EASA Accountable Manager	The manager who has corporate authority for ensuring that all maintenance required by the customer can be financed and carried out to the standard required by the EASA full-member Authority.
EU	European Union
Exemption	An authorization that permits an alternate means of compliance with a specific CFR. The exemption must meet the procedural requirements of 14 CFR Part 11.
FOCA	Federal Office of Civil Aviation
FAA Accountable Manager	A person designated by the certificated repair station who is responsible for and has authority over all repair station operations that are conducted under 14 CFR Part 145, including ensuring that the repair station's personnel follow the regulations and serving as the primary contact with the FAA.
Geographic	An approval provided to a repair station located outside the United

Authorization	States to perform maintenance support under contract for a U.S. air carrier (or an operator of U.S.- registered aircraft under 14 CFR Part 129) at a location other than the repair station facility. A geographic authorization is issued by the FAA to respond to a U.S. air carrier's or Part 129 foreign operator's need for maintenance at a station where the frequency and scope of that maintenance does not warrant permanently staffing and equipping the station for its accomplishment.
Limited Rating	A rating issued to repair stations for the performance of maintenance on particular makes and models of airframes, powerplants, propellers, radios, instruments, accessories, and/or parts.
Limited Ratings - Specialized Services	Rating issued for a special maintenance function when the function is performed in accordance with a specification approved by the Administrator.
Line Maintenance	Any unscheduled maintenance resulting from unforeseen events, or scheduled checks where certain servicing and/or inspections do not require specialized training, equipment, or facilities.
MAG	The Maintenance Annex Guidance (MAG) defines the process that the FAA and EASA undertake in the inspection, findings of compliance certification, and monitoring of repair stations, as well as their joint cooperation in quality assurance and standardization activities in support of the Agreement, Annex 2, Maintenance.
Maintenance	The inspection, overhaul, repair, preservation, and replacement of parts, but excludes preventive maintenance.
U.S./EU Aviation Safety Agreement, Annex 2, Maintenance	Annex 2 covers the reciprocal acceptance of findings of compliance, approvals, documentation and technical assistance regarding approvals and the monitoring of repair stations/maintenance organizations.
MIP	Maintenance Implementation Procedures (MIP) are procedures for implementing the provisions of a BASA that apply to maintenance.
MOE	A maintenance organization exposition (MOE) pertains to EASA member countries that use an MOE in place of a Repair Station Manual (RSM) and a Quality Control Manual (QCM).
Preventive Maintenance	As defined in 14 CFR part 1 and part 43 appendix A, subparagraph (c).
QCM	Quality Control Manual
Repair Station located in the United States	A certificated repair station located in the United States.

Repair Station located outside the United States A certificated repair station located outside of the United States.

A449 . Antidrug and Alcohol Misuse Prevention Program

HQ Control: 07/17/2009

HQ Revision: 00a

- a. The Part 145 repair station certificate holder has elected to implement an Antidrug and Alcohol Misuse Prevention Program, because the certificate holder performs safety-sensitive functions for a 14 CFR Part 121, and 135 certificate holder and/or for a 14 CFR Part 91 operator conducting operations under Section 91.147.
- b. The certificate holder certifies that it will comply with the requirements of 14 CFR Part 120 and 49 CFR Part 40 for its Antidrug and Alcohol Misuse Prevention Program.
- c. Antidrug and Alcohol Misuse Prevention Program records are maintained and available for inspection by the FAA's Drug Abatement Compliance and Enforcement Inspectors at the location listed in Table 1 below:

Table 1

Location & Telephone of Antidrug and Alcohol Misuse Prevention Program Records:	
Telephone Number:	(A2) CONN671B
Address:	4010 Pilot Drive
Address:	Suite 103
City:	Memphis
State:	TN
Zip code:	38118

d. Limitations and Provisions.

- (1) Antidrug and Alcohol Misuse Prevention Program inspections and enforcement activity will be conducted by the Drug Abatement Division. Questions regarding these programs should be directed to the Drug Abatement Division.
- (2) The certificate holder is responsible for updating this operations specification when any of the following changes occur:
 - (a) Location or phone number where the Antidrug and Alcohol Misuse Prevention Program Records are kept.
 - (b) If the certificate holder's number of safety-sensitive employees goes to 50 and above, or falls below 50 safety-sensitive employees.
- (3) The certificate holder with 50 or more employees performing a safety-sensitive function on January 1 of the calendar year must submit an annual report to the Drug Abatement Division of the FAA.
- (4) The certificate holder with fewer than 50 employees performing a safety-sensitive function on January 1 of any calendar year must submit an annual report upon request of the Administrator, as specified in the regulations.

The certificate holder has 50 or more safety-sensitive employees.

**D100 . Work to be Performed at a Place Other Than the Repair Station Fixed Location(s) HQ Control: 11/16/2004
HQ Revision: 050**

- a. The certificate holder may perform work at a place other than its Fixed Location (as listed in paragraph A001, and paragraph A101 if issued, of these operations specifications) provided it has the facilities, material, equipment and technical personnel to perform the work authorized in the following table.

Table 1

Work Authorized	Repair Stations Manual References	Quality Control Manual References
All work for which the repair station is rated	Repair Station Manual, section 4-5 & 4-6, as revised.	Quality Control Manual, section 2.006, as revised.

- b. The certificate holder **may not** perform **continuous** operation at a facility other than the station's Fixed Location listed in paragraph A001, and paragraph A101 if issued.
- c. Line Stations . Privileges of a line station, as set forth by the EASA certificate and scope of work and located within the country where the main facility is domiciled are listed in Table 1 are authorized.
- d. Work may be due to a special circumstance or on a recurring basis. If on a recurring basis, the repair station must have procedures in its manual.
